**Feedback from Trialling Schools**

Name & Address of School

Name of Teacher

Subject

Date

Age groups taught, ability of class and courses taught (e.g. double cert. science GCSE)

How many lessons?

How much preparation time did you need?

Do you consider that acceptable?

Materials used

What path did you take through the materials?

How easy were they to use?

How useful were they? Did they fit in with the curricula you need to teach?

How clear were they?

How much did your students enjoy the materials?

How much do you think your students learned from the materials?

Will you be encouraging your school to download *climateprediction.net* on school computers?

Will you be encouraging your students to download *climateprediction.net* on home computers?

Will you use any of the materials again?

Do you have any specific suggestions as to how to improve any of the materials?
